Description of change

AXON'CABLE stop producing cables with red reinforcement tape.
 Recommended new color is blue with inkjet printing on the cable body (color of ink: BLACK) to make difference between the two cable ends or between cables.
 Code of red reinforcement: **R**,
 Code for blue reinforcement: **B**

Customer Impact of change and recommended action

Color of reinforcement will change + inkjet printing will be used on the cable body, close to the cable end (color of ink: BLACK)
 Text for printing can be letters or numbers or both ,following customer requirement

Reason for change

Red reinforcement is obsolete.

Product Identification

Example :

Old identification code

FFFC0,50D50/0125E3,5-3,5-05,0-05,0EABR
