

Product Obsolescence Memo

TISP® THYRISTOR SURGE PROTECTORS

July, 2014

Bourns® Model TISP4SxxxBJ Overvoltage Protector Series to be Discontinued

In accordance with our ongoing product lifecycle management procedure, Bourns has identified select TISP4SxxxBJ Overvoltage Protector Series products that are being transitioned to an End of Product Life status. A lack of sales volume and diminishing demand necessitates this action.

Recommended replacement products, Model TISP4xxxBJ series, are available. The replacement devices are functionally equivalent and are pin-to-pin compatible. Please contact the Bourns team of Field Application Engineers if you have any questions regarding the suggested replacement parts and your application requirements.

Products purchased during this End of Product Life transition period will be covered by Bourns' standard warranty. Last Time Buy orders for these products will be considered non-cancellable and non-returnable.
