

M300 - 10A Hi-Rel Connectors

Power Connectors with reliable performance in harsh applications

Specify Harwin’s M300 range of high reliability and performance connectors for your aerospace, defense, industrial or other harsh environment application.

Achieve a compact power connection with up to 10A per contact, giving you a lightweight robust solution with a proven track record under extreme conditions. Guard against vibration and shock with fitted stainless steel jackscrews.

Future-proof your designs with halogen-free, RoHS compliant materials and low outgassing levels. These 3mm pitch PCB connectors, crimp cable connectors and ready-made cable assemblies are available from stock across the Harwin supply network.

Features and Benefits	
Up to 10A per signal contact (all electrically loaded; 5A if 22AWG wire is used) at 3mm pitch	Capable of a variety of power uses within a compact design, saving PCB real estate
Proven 4-finger contact design	Maintains electrical continuity through high vibration and shock environments
Beryllium Copper Contact with -65°C to +175°C temperature range	Rugged and durable connector design with proven track record
1,000 Mating cycles durability	Suitable for both fit-and-forget and multiple testing and replacement cycles
Future-proofed material usage	Halogen-free, PFOS-free, SVHC-free and RoHS compliant
Low outgassing properties	Meets NASA outgassing requirements for vacuum or space usage
Full cable assembly options off-the-shelf	Reduced delivery , fully tested assemblies with hassle-free installation

Key Applications	
Aerospace, Defense & Security	Radar, avionics controls, guidance systems, UAVs, engine power management, vehicle electronics
Motorsport & Transport	Navigation, ERS controls, GPS and telemetry system
Space	Satellites & CubeSats, communications, launch systems, radar and communications
Industrial	Robotics, automation, drives & controls
Energy	Oil & Gas, renewable energy equipment

6-contact male vertical throughboard PCB connector

10-contact male cable connector

3-contact female vertical throughboard PCB connector with scoop-proof mating face

## Product Features

High-grade Military Spec M22759/11 wire, Off-the-Shelf Cable Assemblies

Back potted for strain relief and security

Stainless steel jackscrews ensure strong and secure mating

3 major polarization features to prevent mis-mating

Pin 1 position marked

Compact 3mm pitch to reduce space and weight requirements

Gold plated contacts resist high levels of vibration and shock

Up to 10 amp contact system (wire dependent)

100% electrically tested for total confidence in fault-free connections

Shrouded housing designed to protect the contacts during mating cycles

Low outgassing materials used

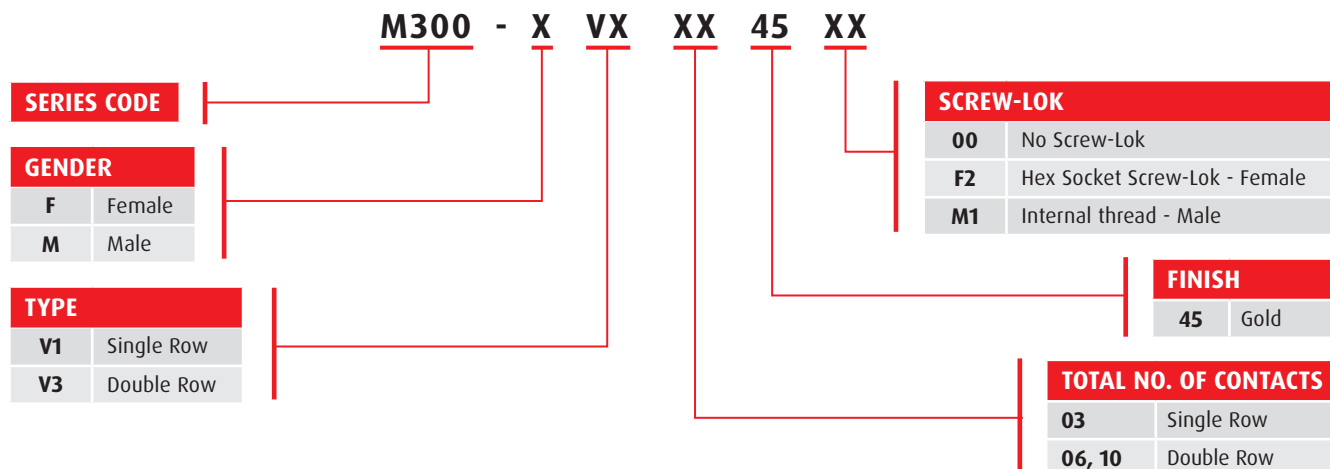

Scoop-proof female contacts for added protection against shorting

## Specifications

Electrical		Mechanical		Physical	
Current Rating	10A per contact (5A with 22AWG wire)	No. of Operations	1000	Housing	30% GF PA4T
Working Voltage	600V AC/DC	Insertion Force	9N max per contact	Contacts	Copper alloy, Gold over nickel plated
Maximum Voltage	1800V AC/DC	Withdrawal Force	1N min per contact	Jackscrews, Circlip	Stainless steel
Contact Resistance	6mΩ Max	Temperature Range	-65°C to +175°C	Wire	M22759/11 (18, 20, 22 AWG)
Insulation Resistance	100MΩ min at 100V DC	Vibration	10G for 9 hours		

## How to Order

### PCB Connectors

### Cable Conductor Housing

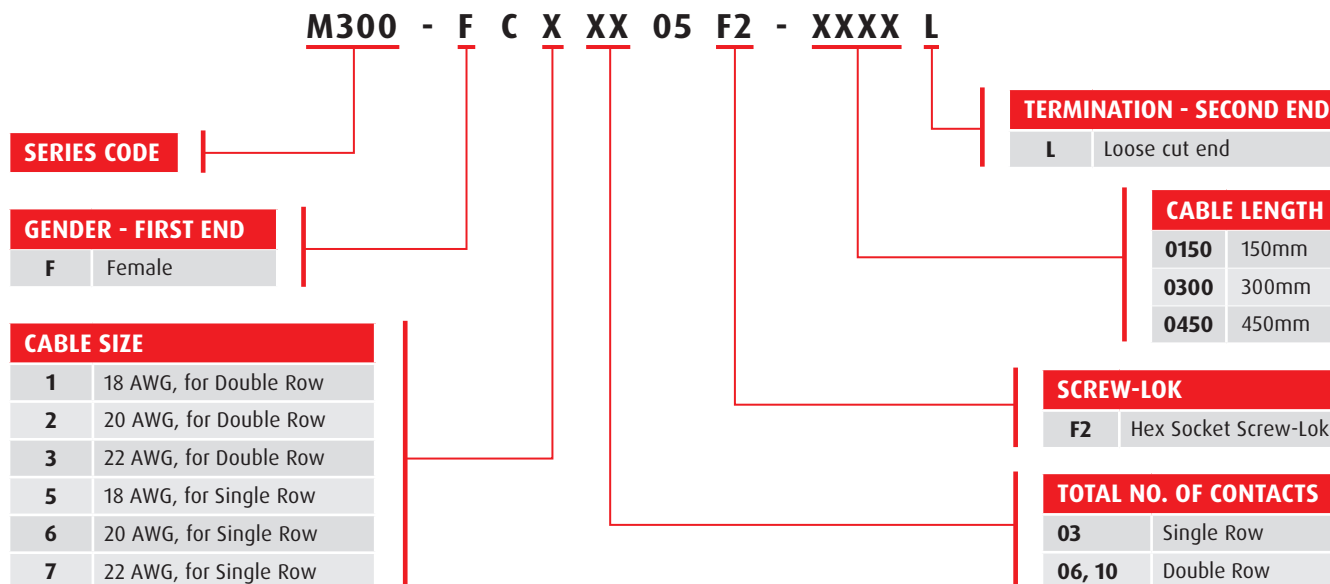

### Crimp Contacts

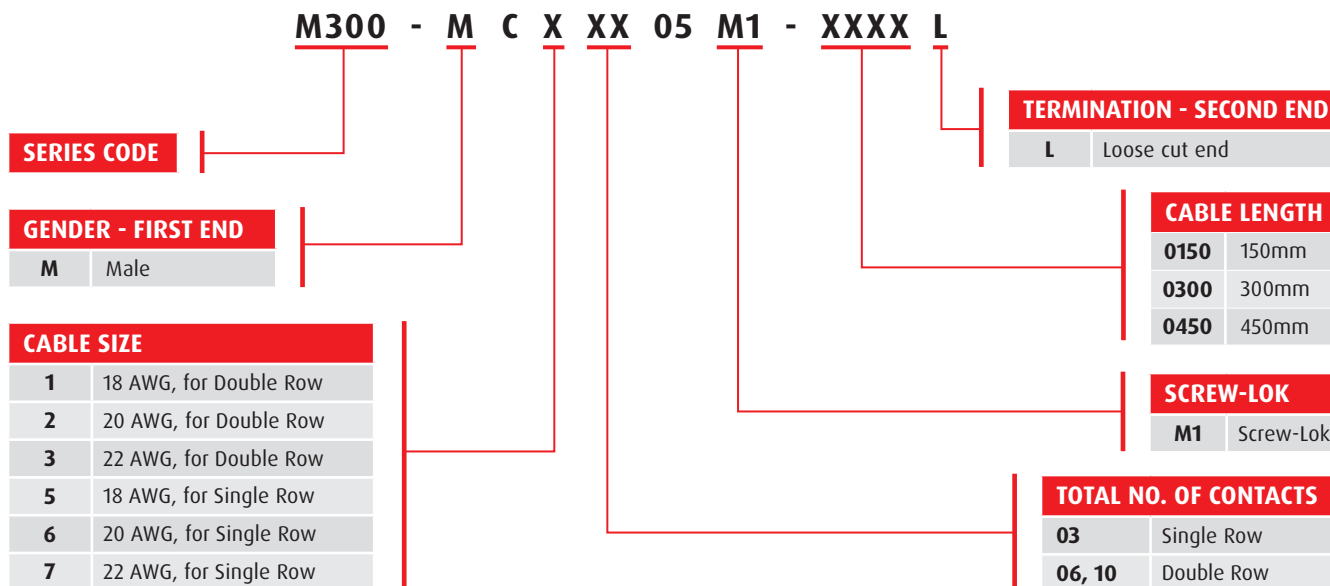

## How to Order

### Female Cable Assemblies

### Male Cable Assemblies
