HELIUm

WORLD's SMALLEST 0201 SMD LED

Product Features

- Industry's smallest SMD LED – 0201 footprint
- 0.65 x 0.35 x 0.20mm (LxWxH), various colors available
- Compatible with automatic placement equipments
- Moisture sensitivity level: Level 2, RoHS compliant

Applications

- Superb for mobile and wearable applications
- Ideal for disposable medical devices
- Ideal for portable devices with limited space

OTHER COMPACT OPTIONS

APGF1011 Series

- Smallest tricolor RGB with 0404 footprint
- Generates wide range of mixed colors
- 1.0x1.0x0.2mm (LxWxH)
- Lower Vf required

0.2 mm
1.0 mm
1.0 mm

APHB1608 Series

- Standard 0603 footprints with 2 colors, 4 pinouts
- Available in various color combinations
- Suitable for status indication & backlight

0.5 mm
0.8 mm
1.6 mm

APFA2507 Series

- Smallest right angle side-firing tricolor RGB LED
- 2.5x0.7x1.0 (LxHxW)
- Wide viewing angle
- Lower Vf required
- Generates wide range of mixed colors

1.0 mm
0.7 mm
2.5 mm
